The Mekong River Commission

The Mekong River Commission (MRC) was established by the 1995 Agreement on Co-operation for the Sustainable Development of the Mekong River Basin, between the governments of Cambodia, Lao PDR, Thailand and Viet Nam. The role of the MRC is to coordinate and promote cooperation in all fields of sustainable development, utilization, management and conservation of the water and related resources of the Mekong River Basin. The MRC Secretariat is the operational arm of the MRC. It provides technical and administrative services to the Joint Committee and the Council to achieve the MRC's mission.

VISION for the Mekong River Basin: An economically prosperous, socially just and environmentally sound Mekong River Basin

VISION for the Mekong River Commission: A world class, financially secure, International River Basin Organization serving the Mekong countries to achieve the basin Vision

MISSION of the Mekong River Commission: To promote and coordinate sustainable management and development of water and related resources for the countries' mutual benefit and the people's well-being

MRCS values

- Integrity
- Transparency
- Mutual respect
- Professionalism
- Accountability
- Results orientation

1. Job Summary / Job Statement

The Jobholder is the Head of Regional Flood Management and Mitigation Center (RFMMC) located in Phnom Penh, Cambodia. He/she will assist and support the MRCS Director of the Technical Support Division (TD) in the day-to-day management of the RFMMC. He/she will be the technical lead and manager to oversee RFMMC work as well as to guide other RFMMC's specialists to achieve MRC's assigned outputs. He/she will work in close collaboration with the Chief Hydrologist and other members of the TD.

2. Key expected performance indicators (KPIs)

2.1 MRC Outputs oriented KPIs:

Responsible for the RFMMC's annual outputs and results through activities to:

- Provide inputs to update Flood Management Strategies.
- Provide technical inputs to the preparation of Drought Management Strategies.
- Work with the NMCs and national line agencies in member countries to ensure full participation of appropriate line agencies in the implementation of the Centre's activities.
- Provide technical inputs and support to facilitate and manage transboundary flood National Indicative Plans (NIPs) and Member Countries' joined-projects in Mekong basin's border areas.
- Provide management and monitoring of assigned staff on routine river flood and flash flood forecasting in flood season; river monitoring in dry season and make sure daily and weekly broadcasting of flood forecasting and river monitoring, and related information on MRC websites and relevant communication channels.
- Contribute and provide inputs to MRC's annual combined hydrological, flood and drought report.
- Provide technical and managerial inputs for the improvement/development of river flood and drought forecasting and flash flood guidance system.
- Provide technical input and support to technical staff to implement effectively all RFMMC's assigned development projects
- Ensure the preparation of technical reports, such as progress and activity reports and be responsible for RFMMC staff's performance assessments.
- Make sure annual work plan is made based on MRC Strategic Plans and basin emerging issues regarding to Mekong Basin's flood management and mitigation that includes anticipated regional workshops and capacity building activities and feasible implementation plans.
- Continuously identify progressive risks, key and emerging issues hampering the progress of RFMMC coordination and implementation including foreseen and/or actual deviations from the work plans, milestones and indicators, assess consequences, select and implement appropriate response measures;
- Make sure annual audits to be done in a most effective manner with high quality of Centre's operation and management.
- Strengthen networking with other international river basin organizations, global

links, relevant organizations and technological resource centres around the world as well as to, in consultation and coordination with the Office of CEO, support fund mobilization for an enhanced Centre.

- Propose, advise, develop or implement other related duties as assigned by Division Director and MRC Chief Executive Officer
- Be responsible for effective and efficient use of MRCS resources i.e. human, financial, assets, networks, partnerships, etc. and is in charge of the day to day management of the Centre.

2.2 Competency KPIs:

Strategic-organizational

- Efficiently coordinate day-to-day operations, facilitate and implement the RFMMC implementation work plans, budget plans, technical studies, training and workshop schedules, etc. in a well-coordinated and harmonized manner;

Methods, technique

- Act as a sound chief technical advisor and office manager of the RFMMC and be an effective focal point for all RFMMC related information that goes beyond the individual RFMMC activities;
- Provide and coordinate sound technical inputs of MRC professional staff, consultants, national focal points and regional collaboration partners;
- Strengthen the network with other international river basin organizations and global links with relevant organizations and technological resource centres around the world;
- Continuously coach and transfer knowledge and skills to team members to build next leadership generation.

Personal-social factor

- Show profound leadership and managerial quality that focuses on good team work and effective delegation,
- Work to build trust and harmony within the team and with MRC at large.

2.3 Behaviour KPIs

- Be accountable to the MRC
- Be transparent in decision making
- Be cooperative and fair to all staff members
- Be punctual, professional and committed Head of the RFMMC
- Output-oriented, diplomatic and culturally sensitive
- Be ethical and follow closely MRC Oath of the Office.
